

CLARK JACOB

WEB DEVELOPER

Pasig City, Philippines | clarkjacob627@gmail.com | 09354116879 | clarkdev-portfolio.vercel.app

SUMMARY

I am a recent graduate, aspiring to be a full-stack web developer using **MERN (MongoDB, Express, React, and Node)** stack. Experienced in building responsive web applications, REST APIs, and deploying projects using modern tools like Git and cloud hosting platforms.

TECHNICAL SKILLS

- **Frontend:** HTML, CSS, Javascript, React
- **Backend:** Express, Node, MongoDB
- **Tools:** Git, GitHub, Postman, VS Code
- **Hosting:** Netlify, Vercel, Render

PROJECTS

Open Notes (React, Express, Node, MongoDB)

- Developed a full-stack **note management** web application using **MERN** stack.
- Developed RESTful APIs using **Node** and **Express** to handle note data, and **Axios** for requests.
- Managed frontend state and UI rendering using **React hooks**.
- Stored and retrieved note data using **MongoDB** (Mongoose).
- Implemented **CRUD** functionality to create, update, and delete notes.

Quiz Quests (HTML, CSS, Javascript)

- Developed an **E-Learning** website with digital learning materials using Vanilla Javascript.
- Managed data using Local Storage.
- Created a mini **Quiz system using** arrays and event handlers for UI rendering.

Web Bundy (HTML, CSS, Javascript)

- Built a **time-keeping system** for tracking total work hours. Made for school-required intern students.
- Implemented Local Storage for storing time-in and time-out data.
- Used array rendering for displaying timestamps and total elapsed hours
- Integrated a Login system using simple validation in the local storage

Automated Irrigation System - Capstone (Arduini Cloud, C++, WeMos D1R1)

- Built an **Automated Irrigation System** using **Machine Learning** for soil moisture analysis.
- Integrated **moisture sensors** to monitor soil water level.
- Used **WeMos D1R1** microcontroller and programmed using **C++**.
- Created using **Arduino Cloud** to display moisture level and control irrigation **wirelessly**.

WORK EXPERIENCE

Application Quality Assurance Intern

MNLeistung Inc. (Aug 2025 - nov 2025)

- Implemented rigorous testing protocols for mobile applications, enhancing user experience and product reliability.
- Carried out tests on raw materials to verify compliance with raw material specification documentation.
- Conducted thorough quality assurance tests on new software features to identify bugs and discrepancies.

EDUCATION

ICCT Colleges Cainta Main

- Bachelor in Science in Information Technology

CERTIFICATION

- **The MERN Full-Stack Guide** - *Udemy, 2025*
